Experience

EXAMROOM.AI

Software Developer

Bengaluru, India

April 2024 – Present

- Designed and implemented a scalable candidate-facing job portal using **React.js**, **Next.js**, **Redux Toolkit**, and **Axios**, delivering a responsive and SEO-optimized user experience with **100% SEO**, **90% Best Practices**, and **84% Accessibility** scores.
- Built and maintained secure **RESTful APIs** using **Node.js**, **Express.js**, **NestJS**, and **TypeScript**, handling authentication, candidate profiles, job search, and job application workflows using **BFF (Backend-for-Frontend)** architecture.
- Integrated **AI-driven features** including job-matching recommendations, resume enhancement based on job descriptions, and **ATS score analysis**, reducing candidate resume creation time by approximately **70%**.
- Developed cross-platform mobile applications using **React Native** with **native code in Kotlin and Swift**, enabling advanced device-level features such as camera access, vibration, flash alerts, and full-screen notifications.
- Implemented real-time **AI-based monitoring** using **Google ML Kit** for pose detection, face detection, and object detection, supporting secure proctoring and live flagging mechanisms.
- Integrated **Firebase Cloud Messaging (FCM)** and **Apple Push Notification Service (APNs)** for reliable, high-priority notifications, improving response rates and overall operational productivity by **40%**.

KVELL TECHNOLOGIES

Software Developer

Ludhiana, Punjab

December 2023 – April 2024

- Migrated a legacy school management platform from **PHP** to **Next.js**, delivering a modern, SEO-friendly, and responsive UI based on Figma designs.
- Achieved **SEO 90%**, **Accessibility 85%**, and **Performance 89%** through performance optimization and best frontend practices.
- Developed scalable admin dashboards and management modules; received a **4.7/5 Upwork rating** for code quality, communication, and timely delivery.

Technical Skills

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML, CSS, Redux Toolkit, PWA

Mobile: React Native, Kotlin, Swift, Native Modules

Backend: Node.js, Express.js, NestJS, FastAPI, MongoDB, PostgreSQL, JWT, REST APIs

Validation / ORM: Pydantic, Prisma

AI / ML: Google ML Kit, Generative AI, LangChain, LangGraph, Gemini API

Tools: Git, GitHub, Docker, Postman, Chrome DevTools, Lighthouse

Projects

AnkitVerse – Dev Blogs Link

Full-stack blogging platform built with **Next.js**, **Node.js**, and **MongoDB**, featuring role-based access, semantic search, and a context-aware AI assistant.

AI Content Genim Link

AI-powered content generation platform using **React**, **Node.js**, and **Google Gemini API**, supporting blogs, YouTube scripts, and social media templates with Razorpay integration.

StudyNotion – E-Learning Platform Link

Full-stack **MERN** application with role-based access, JWT authentication, Razorpay payments, dashboards, and course management.

Education

R.I.E.T, Phagwara, Punjab

Bachelor of Computer Applications
